# ReqIF Recommendation

prostep ivip Recommendation PSI 18 V2.1

**ReqIF Recommendation**

Comprehensive Collection of Industrial ReqIF Use Cases

## Abstract

The ReqIF Requirements Interchange Format [1] enables the exchange of requirement information by transferring XML documents.

This Recommendation provides an overview of the prostep ivip project activities regarding ReqIF. After a short introduction, the interaction of the user-driven Workflow Forum and the vendor-driven Implementor Forum is explained in more detail. Within the ReqIF Workflow Forum project group, use cases for the application of ReqIF in the context of product engineering were specified. These are presented in this document. For the industrial implementation of the use cases a workflow has been defined. To support the workflow the user community agreed on a set of user-defined attributes and their values. These attributes will become part of a ReqIF data exchange.

## Disclaimer

prostep ivip Recommendations (PSI Recommendations) are available for anyone to use. Anyone using these recommendations is responsible for ensuring that they are used correctly.

This PSI documentation gives due consideration to the prevailing state-of-the-art at the time of publication. Anyone using PSI documentations must assume responsibility for his or her actions and acts at their own risk. The prostep ivip Association and the parties involved in drawing up the PSI documentation assume no liability whatsoever.

We request that anyone encountering an error or the possibility of an incorrect interpretation when using the PSI documentations contact the prostep ivip Association ([psi-issues@prostep.org](mailto:psi-issues@prostep.org)) so that any errors can be rectified.

# Table of Content

<b>1 Introduction</b>	<b>2</b>
1.1 Harmonization of ReqIF exchange processes	2
1.2 Collaboration between the ReqIF Workflow Forum, the Implementor Forum and Benchmark	3
<b>2 Use Cases</b>	<b>3</b>
2.1 Structure of the use case descriptions	4
2.2 ReqIF for Requirements Export	5
2.3 ReqIF for Requirements Import	6
2.4 Introduction to Stakeholder Request Clarification (SRC) Use Cases	7
2.4.1 Standard SRC process	8
2.4.2 Multi-Supplier SRC process	10
2.4.3 Multi-Tier SRC process	11
2.4.4 Variant Management	13
2.4.5 Parallel working on specifications	14
2.5 ReqIF for Testing & Validation	15
2.6 Accompanying documents exchange between customer and supplier	17
<b>3 User-defined attributes</b>	<b>19</b>
3.1 ReqIF conventions and agreements on attributes	19
3.2 Attributes for the ReqIF Use Cases	19
3.3 ReqIF user-defined attributes	20
3.3.1 ReqIF-WF.CustomerStatus	20
3.3.2 ReqIF-WF.SupplierStatus	22
3.3.3 ReqIF-WF.Type	22
3.3.4 ReqIF-WF.Revision	23
<b>4 Stakeholder Request Clarification workflow</b>	<b>24</b>
4.1 Conventions	25
4.1.1 Handling of requirements that a supplier cannot fully meet	25
4.1.2 Handling of sub elements	25
4.2 Partial update of an existing specification	25
4.2.1 Handling of deleted requirements	26
<b>5 Final remarks and outlook</b>	<b>26</b>
<b>Annex A: Glossary Swim Lane diagrams</b>	<b>27</b>
<b>Annex B: Workflow diagrams</b>	<b>28</b>
<b>Annex C: Examples of status usage</b>	<b>30</b>
<b>Annex D: Quality Checks</b>	<b>31</b>
<b>Annex E: References</b>	<b>31</b>
